

Traffic Alert

Please be advised that Mosites Construction is anticipating beginning work on the Fleming Park Bridge Project on or about August 13, 2018, which is at the eastern end of Neville Island. The bridge will be closed for almost one year and the detours will last throughout the duration of the project.

The detour from Neville Twp. will direct traffic into Coraopolis, down 4th Avenue to Thorn Run Road and a left on SR 51 South (5th Avenue) and continuing through the borough and beyond.

The detour from Stowe Twp. will direct traffic on SR 51 North to I-79 North to the Neville Island exit. This may cause backups during heavier traffic periods.
